I have a RANA SYSTEMS 1000 disk drive for the ATARI that needs a good cleaning and adjusting. I tried to contact RANA directly (the facility is only two blocks from my work) but it seems that they up and ran... If anyone knows of anyone that services RANA products (Los Angeles area preferred) I would be forever indebted to you. Please reply to me only and I will forward to anyone else that wants the info.

thanks...

Michael Farkas
