Subject: Quiet around here...

Hello all,

Anybody have an idea of how much Dungeon Explorer II (US) goes for
nowadays? Not even ebay was much help. Seems like the jpn ver goes for
less.

Also, not sure who to direct this to, probably Bt, but I can't seem to
access pcecp.com and mindrec.com. I get connection refused. Both sites
come up fine from my university account, but when I'm at home, it doesn't
come up at all. Immediate access refused message from my browser.

I suspect that I'm part of some IP address range that's being blocked. If
someone on the list knows who to contact, please let me know.

Thanks!

David Woodford
