I watched all 4 seasons of the rebooted Battlestar Galactica - I assume that's the version they're talking about - and don't remember ever seeing the name Nikki Clyne in any credits. Of course my memory is far from infallible so I looked her up in IMDB to see who I was forgetting. She's not listed \*there\* either. Does anyone remember her? Or are the media inventing people now?

I had to look her up too. She's there.  
<http://www.imdb.com/name/nm0167435/>  
They just spelled her name wrong.

She's not done much in the decade since the new Galactica. One voice  
over, and a TV series that's still in post. Guess she's been busy with  
the sex cult.

She's a regular on the scifi con circuit, too. I met her a few times when my friend Lucy Carro invited me out to the local cons where she was signing. Clyne was invariably there as well.

I bet she has some interesting photos to sign.

I never saw any branding. You'd think she'd show something like that off.

Even looking at her picture doesn't ring any bells. She must have been a  
pretty minor character with only a very few lines. Or maybe my memory is  
just letting me down....

I recognized the name but couldn't have told you what she was in or what  
she looked like.

36 episodes is not a minor character. She was the chief's wife that got spaced...

That explains why she has the time required for running a sex cult.
