Supposedly ...

24% of AmigaOne X5000 buyers have never used AmigaOS 4.1

< <http://www.generationamiga.com/2017/12/02/24-of-amigaone-x5000-buyers-have-never-used-amigaos-4-1/>>

so some people must have bought them, despite not actually being an "Amiga" in anything but name.

Commodore was reportedly planning a proper Amiga 5000 for around 1995, but the idiots in management destroyed the company first.
