Happy Sibling's Day, C= and Ami aficionados! :)

The Fresno Commodore User Group has its next meeting from 11 a.m. to 2:00+ p.m., Sunday, April 15 at --

Bobby Salazar's Mexican Restaurant  
2839 North Blackstone Ave. (corner of Blackstone and Michigan)  
Fresno, California  
(559) 227-1686

This month we have the old and the new! In regards to the old, we'll check out the club disks from the libraries of the long-gone CIVIC 64/128 club of Ventura, California and from the Diablo Valley Commodore User Group of Walnut Creek, California. Also because this is April, we go back 20 years to the April, 1988 magazine disk of Compute!'s Gazette and see what was popular back then.

As for the new, member David will show the video of the new C64 Mini (which is due for imminent release in North America). Member Brad and I will be bringing in the latest Wi-fi modems for 8-bit Commodores, a pair of StrikeLink modems (two versions) and the WiFi64 modem (from SharewarePlus of England). If I bring the C128DCR and SuperCPU 128, we can boot up the new alpha version of Tempest for the C128.

Finally, the Amiga CD32 console will appear, complete with the new, heavy-duty, Ray Carlsen power supply for the CD32.

Not forgetting to report on the Commodores/Amigas  
at the April 14 Livermore Innovation Fair,  
Robert Bernardo
