From Wiki

a slice of life comedy manga series by Fumi Yoshinaga revolving around a group of friends in a high school. The manga is serialised in

award in 2008 and one of the Young Adult Library Services Association's 2008 Great Graphic Novels. The manga is licensed in North America by Digital Manga Publishing.[1][2]

Flower of Life was one of the first manga i read from the shelves of the SFPL Main. It is about a boy who was treated for and survived Leukemia by radiation and bone marrow transplant.

He, Harutaro Hanazono, returns to school having missed a year and grown considerably. He initiates a friendship with Shota Mikuni, a short and chubby boy whom all good people seem to find quite cute.

They are both incipient otaku and a third member,

Kai Majima is a full on otaku having surrendered to his passion, neglecting his studies and working part-time for money to finance his hobbies,

The home room teacher and one other teacher married are having a passionate affair.

His sister and father are at home, and we get to meet them. Both the parents are Chicken Sexers and mother is abroad in Spain teaching the skill to the workers there.

So this is a fine manga and deserves reading and I am enjoying reading it again.
