Thank you for reading and hopefully answering soon. :)

Reportedly there are no "slow parts". The thing is such a hopeless mess that they've tried to cram in about six hours of story into a two hour movie. :-\

Not that it matters since you should be paying to see it because that only encourages them to make more of this disaster. If you really have to see it, just download it from the naughty-web instead and you'll get the added bonus of being able to pause it whenever you want.

I downloaded it and can confirm there are no such spots.

But the movie doesn't make sense anyways, so missing part of it won't make you any more lost than the rest of the audience.

It's Jar Jar Abrams, so of course it doesn't make sense. Nothing he's ever touched makes sense, and now he's ruined yet another franchise.

:-)

SPOILERS ALERT!

I had to go pee during these two scenes during the so so movie:

1. Under the quick sand's tunnel scene after the group and Chewbacca were OK and Rey was touching that sandworm or whatever that was. I was told they found a dagger that was used in the later scene.

2. I saw Rey was in the forest/jungle and then I came back with her was talking to Luke ghost.

I will watch it on home release again with episode X comes out in years later. :P
