Hi Readers and Typers,

The online servers that dish up our favorite manga
are now full of Chinese and Korean comics as well.

Now if you are interested in manga to the exclusion of manhwa
and manhwa here are some clues.

The manhwa usually have titles that make sense in English
though the translation in the comics may be just as bad as in the
worst translations from the Japanese.

The manhwa is usually a web comic and some of the them
are pretty good and the title might make a little sense. The
published ones of which I have read a couple are often much
better.

Manga don't seem to bother much with title translations
but usually the quality of the internal translation has greatly improved.

While I love many manga very few manhwa are of interest
as the action moves too slowly for me. These may be of
interest to others.

So far I have seen only one manhwa which comes up to
manga standards and it has been quiet for some time with no
new chapters out. It is about a dojinshi circle and a
bookstore.

So I try to avoid most manhwa which seems to be flooding
the online servers.

Bobbie -

Why don't you list the current manga series that you are following? I'd be interested in seeing what you are reading. I'm following a couple of dozen and I'm interested to see if we have any of them in common.

Thanks =

Dave you might regret that request. ;^)
Some of these I have not gotten that far with due to
the slowness of releases

Well Dave I am reading Mochi Au Lait's Short One-Shots Collection which
is all light yuri.

Useless Ponko which is a about a housekeeping robot on its final
assignment before it is recycled into 500 yen coins, humorous largely
but with moments of tension. She is serving as companion to an elderly
widower who accepts her more fully after he learns that his wife wrote
the contract.

Onnanoko Gare! which is about a young JK being helped to be more
feminine by a person who is rather ambivalent in deportment.

Joshi Daisei ga Goukon de Onee-san ni Mochikaerareru which seem to be
about a lesbian (sexual)wolf.

Her Elder Sister Has a Crush on Her, But She Doesn't Mind about an
older sister who is apparently interested in HS girls.

The Fallen TS Girl which seems to be an unwilling person moved to a
female body.

Ryunen! Todome Senpai about a sempai-san held back a grade in HS
and her way of getting help from a kouhai she knows.

Dodoma about a supernatural being of ambiguous gender in a European
mythic background seems to be helping people. I don't much
like this one but it might be a more interesting story than I find it.

Hibari ga Naitara Tsukamaete about the reunion in college, one is a
student, the other a dropout, of HS pals. Shounen ai overtones.

Chitchai Kanojo Senpai ga Kawai Sugiru. which might be about a
relatively normal boy/girl relationship.

Today, We Continue Our Lives Together Under the Same Roof which is
about a happy pair of Lesbians much in love.

Yotsuya Kaidan! about a boy who is in love with a girl who disappeared

seems to be a ghost is only hanging around with the boy who loves her because he can tell her great passion that she is in love with him. The boy she is crazy about is one of those who gets hives when he talks to other boys.

Fukakai na Boku no Subete o Well a girlish boy was always alone and was offered a job at a maid cafe where nearly everyone is transgender.

Jibaku Shounen Hanako-kun the ghost haunting the toilet is a boy! Still he will help lovers.

The Two of Them Are Pretty Much Like This another tale of girls who love girls.

Oshikake Twin Tail is about a hikikomori who happens to be a trader working from home online. He lives by himself until the JK in the title and her mother move in with him. She of the twintails is an omni-competent housekeeper and cook.

Comic Girls possibly future manga in a dormitory working to learn their craft.

Hoshiakari Graphics seems to be about problems of college girls in shoujo ai relationship.

Ore ga Watashi ni Naru made (Pre-serialization) about a boy whose body changes sex and his difficulties in adjusting.

Ohayou Toka Oyasumi Toka salary man selfishly, living independently, who through family complications acquires a family of 4 girls the one named above who is omni-competent at home, her older sister and two young twins who are really selfish and centered on their own relationship. He begins to gain some maturity in caring for the children.

Dioti Manual ~Kamisamatachi no Ren'ai Daikou~ two supernatural forces embody themselves and try to learn about humanity.

Momoiro Ome-chen a gender swap and the girl in the Boy's body is rather aggressive and her body does not remember the skills she gained as a girl. The boy in the Girl's body is rather worried about this.

Trap Heroine which may be complete in 13 chapters but I hope not as it was rather interesting. Reminders of Hourou Mousoko

Kyou mo Onnanoko wo Kouryaku shita. shoujo ai comedy

Orient a perversion of the tale of Musashi. I call it that

because it totally negates the true story which is far more interesting than this far-fetched story. I will drop this as soon as I make though the first chapter,

Fudanshi Kazoku - is a story about a family of men, two or three boys and a father who are all boys love fans and one is a author/artist who publishes online.

Dosanko Gyarū Is Mega Cutei is about a Southerner who moves to Hokkaido and encounters a gyaru (mega cutie) who is very helpful.

Onii-chan wa Oshimai One morning, an older brother wakes up to find that he has turned into a girl from his genius younger sister's drugs. Then Onii-chan has to adjust to her new situation.

MOMO: The Blood Taker a vampire versus detective story. Seems solid but we will see,

Gal and Otaku can't understand each other Saotome secretly loves Moe idols even though she is a Gal (Japanese term for popular girls). Otonashi is what you would consider Otaku (nerd), though she also has a secret.

After Reincarnation, My Party Was Full Of Traps, But I'm Not A Shotacon! It's a reincarnation (temporary) Shota Harem manga.

MAO -The story is set in a "land where two worlds intersect," and it centers on "a strange romance between a boy and girl who meet by fate." by Rumiko Takahashi which is why I took a look. Haven't had time to get far yet.

Asper Kanojo about two misfits living in the same apartment.

Akebi-chan no Sailor Fuku about a girl who was raised to believe that she should go to an exclusive school in her mothers old uniform. The school has since modernized their uniform so she will be standing out.

Kyōgaku Koukou no Genjitsu A comedic take on the daily lives of students in a co-ed high school.

Vampeerz, My Peer Vampires a girl is bitten and now must live by the rules of the vampire group. She finds it overly restrictive.

Chocolate Vampire This school is funded by Kagari Ritsuki family. Yuki is the youngest child of Kagari Ritsuki brothers, and an idol in the school. On the other hand, Kashiwagi Chiyo hates Yuki... The truth is Yuki is a vampire, and he always drink Chiyo's blood. Why does she give her

blood to someone that she hates? Is there any secret between those two?

Kanojo ni Naritai Kimi to Boku another tale of gender and emotional confusion between childhood friends.

Territory M no Juunin - Because of her parents divorce, Ema moved to her mother hometown, ginnezu town. this is the meeting of her with weirdos who stay in the same building...

Fusoroi no Renri - two women in love sharing and the problems with the demands of the salarwoman lifestyle.

Jibun ga Twintail no Kawaii Onnanoko da to Omoikonde,
Kyou no Dekigoto wo 4koma ni Suru manga A 4koma of what Roots(author) does with his life, but portraying him as a girl with twintails. Not as funny as they think it is.

The Undead Lord of the Palace of Darkness
Author: Tsukikage Genres: Action Fantasy
Striking the infected with incessant pain that runs throughout the body, a strange, debilitating, and deadly illness. The life of the boy who had suffered several years with this affliction had come to end with little time for him to despair as he died without an attendant by his side. When he awoke again, he had been made into the lowest ranked undead by anevil necromancer. Though the boy rejoiced at having obtained a body that could not feel pain, he immediately realized that he was still at the mercy of others. There was no large difference between his present situation and being confined in bed. However, because the boy wished for peace, he couldn't leave the world as it was. This could be a great story,

Sukeban Arashi Ongoing 3.25
Author: KURUMADA Masami Genres: Shounen School Life
What can I say? the rough but kindly student carries Nunchuks under her garter and is always ready to cut loose on someone 3 times her size. She is, as so often persecuted by a noble lady of her own age with too much money and an evil servant in the guise of chauffeur. They try to turn her boyfriend against her but she saves the day eventually.

I have seen this plot with a heavier girl depicted as the heroine. I looked this up and it marked the take off of a mangka's career it seems.

Pursuit: Blind Man Blues Ongoing 0.0
Author: Gyimah Opare Genres: Martial Arts Horror Psychological
Seinen Doujinshi
PURSUIT the graphic novel series by Gyimah Opare

a.k.a Abeeku Vassall is about 23-year old blind musician Gutaale (Ethiopian for "Leader of Armies") traveling the apocalyptic world of the the unknown future. In many societies there are processes by which people find their place. This is known as "Rites of Passage". After finishing his, Gutaale travels to the outside world in which he is met with a peculiar situation, having to solve a series of murders. Conspiracies, dramatic turns, and tragedy. These are three things that are present within the mysterious outside wasteland. What will he encounter? How will he solve these acts of cruelty and bring peace to the spirits of the dead This is uncertain.... Another very good possibility.

Today's Shou-Joke Manhwa Ongoing 0.0
Author: Son Hagi Genres: Comedy, Reverse Harem, Romance, School Life, Shoujo Webtoons very good humorous stuff.

Transfer Student Ga Ya appears to Grand Master High School's three super elites! Who will be the one to steal Ga Ya's heart? She outwits most of them.

Tatsubon - shoujo ai romance by JKs excellent stuff.

And to be complete but leave out the web comics I also follow.

Stand Still Stay Silent a Nordic post-apocalyptic tale after a disease kills most of the world and gives rise to trolls and giants as well as monstrous beasts.

The short notes are about stuff I have loaded on the Cyberfox but the long notes are from the stuff i recently looked at and the notes I wrote in my manga log. Manga log started in January 2019 after I decided the previous anime/manga/history and culture books was unwieldy. Manga log at 397.5 kb/10,345 lines but I skip some line for readability.

Thanks Bobbie - I am following Mao and I've checked out Hanoko-san but I didn't care enough to follow it. The rest are new to me so I'll look for some of them when I have the time.

I'm also following a number of current manga series:

Ano Hito no I wa Boku ga Tarinai - an "alien girlfriend" type romcom, but with Lovecraftian monsters, including the girlfriend.

Deatte 5-byou de Battle - a "battle royale" type fantasy that has bogged down and now disappeared from sight for quite some time.

Drifters - I was following this before the anime came out and I'm still following it, but it is published very infrequently

Enen no Shouboutai - I started to follow this after seeing the manga and it is pretty good.

Gate - I was reading this before the anime and have continued. They are taking a somewhat different and more detailed approach to get to the resolution that the anime reached. It will be interesting to see if the ending is significantly different

Gleipnir - I started reading this long before the anime came out and I started to become disappointed in the manga around the time that the anime started broadcasting. Right now the author has written himself into a bad corner in the manga - the most interesting part is to see if he can write himself out of that corner.

Houkago Teibou Nisshi - I started to read this when the anime started. I'm enjoying it a lot.

Hyakuman-jou Labyrinth - This is an odd seinen fantasy about two 20-something girls getting caught up in a game world. It's definitely not your usual Isekai/Game world story

Ishuzoku Reviewers - I loved the anime so I started to read the manga and I love it too,

Kyokou Suiri - I started reading this long before the anime and I am still following it. I feel that the mysteries in the manga just work a bit better than they did in the anime

Mado kara Madoka-chan - This is a really odd and funny short manga about a truly mysterious girl who wordlessly exhibits a new daily feat to a passing salary man.

Mahoutsukai no Musume - This is a funny yet dark story about an exorcist's grownup daughter who doesn't want to follow in her father's footsteps but keeps on doing so unconsciously.

Mieruko-chan - a very eerie tale of a girl who can see and interact with spirits and how those interactions keep on getting deadlier.

Ningyō no Kuni - A bizarre cyber-punk tale of an unimaginably distant future and the peoples who are trying to survive in it

Oddman 11 - A very odd tale of a Really Odd group of girls. This is weird even by the usual Douman Seiman standards.

One Piece - It is interesting to read the manga and then see all the details filled in when the chapter is animated

One Punch-Man - Wonderfully mad, just like the anime versions. I follow both the original web version as well as the very glossy manga version.

Ore no Genjitsu wa Renai Game? - A strange and very tense alternate world/game world story. Very seinen compared to most of the like.

Rebuild World - An odd dystopic future sci-fi story. So far quite intriguing.

Sekai de Ichiban Warui Majo - A shoujo fantasy about a witch with a secret and the Researcher who contracts her to protect him. Cute and funny.

Shinigami Bocchan to Kuro Maid - A (possibly) tragic romcom about a young duke who has been cursed to cause the death of any living thing that he touches and the beautiful maid who looks after him despite the curse.

Souboutei Kowasubeshi - A super high energy action adventure story about artists, soldiers, occult researchers and an extremely deadly alien invasion.

Summertime Render - A very tense "body snatchers" sort of story set on an island.

Tonikaku Kawaii - A wonderfully cute romcom about a mysterious girl who might be a moon princess and the brilliant geek who marries her.

Kitsune Spirit - A very different romantic short fantasy about a suicidal middle aged man who unbinds the spell on a centuries-old and very powerful fox spirit who decides that she will save him. She does, they marry, and mature love blooms, along with various magic spells and creatures.

Farthest Library - A strange fantasy about a boy who runs a magical library in a fantasy world.

Ghostly Things - A fantasy about a young woman who can interact with various spirits in a generally positive manner

But I forgot to add to the list of what I am following Hyougemono but a new chapter is online right now so that reminded me effectively. I know you know about this since it was anime. But the manga goes on where the anime stops.
