Most Dearest Tad,

As your friend first and a salesman second, I can't give up on you & let you give up on yourself and this Mega ST. We can resume business for the balance. Amount is \$160.00 U.S.! I may not have everything as before, I have the MonoChrome & may not have another SC1224 Color Monitor! I Don't have your single sided disk drive. I still have a Mouse Master if you're interested? If something happens to you, I don't want your Atari's to go into a dumpster! I want you to give all your Atari treasures to me in your will, should you die first. I'm sorry I can't do the same. Audrey is so mad, I have broken off all relations! She'll dump all my Atari collection! Tony will take over the business and inventory if I go first. He is much more fair on price and will sell more than I with more payment methods! I think, from what My doctors said, my kidneys are shot. I spent 10-14 days in the hospital so the Surgeons put a fistula sticking out of my chest & I've started Dialysis. I do 4 hours a day, 3 days a week at Dialysis! I'm up at 5 A.M. to get to Dialysis, Tuesday, Thursday and Saturday. Doctors drained 100 pounds, 7 gallons they drained out of me as the water would be drowning my heart! This is why they could not operate on my heart yet. Later, when I went back, Surgeons replaced a faulty valve in my heart with an artificial valve! I'm told not to continue to drown my heart With Water. It was only supposed to take 2 days but took 3! They have not have cracked open my chest. They made an incision in my groin and went up to my heart & replaced my faulty valve with an artificial valve! Good news is I don't have a lot of garbage in my heart & I'm alive. I'm sorry I'm leaving all my Atari to Tony! Please reply irregardless of your answers! Thanx! =-Ben=-

Most Dearest Tad,

I'm worried about you. Are you OK? Are you still alive? Do you still have

covid?I need to hear from you. I had surgery. I have tubes coming out my chest for Kidney Dialysis and I'll need surgery for a valve in my Heart!
