The first one-shot was by Marvel/Icon Comics in 2005, followed by an Image Comics maxiseries 2014 to 2016. It was described as "'Dragnet' in the Dreamscape" and is about detective partners patrolling 'The Dreamscape' everyone dreams in or what you might call astral plane. Of course there are quite a few things made up about that plane in the series (which I won't detail but are on some wikis if you scroll down.) I found it very entertaining and it's one of my favourite comic book series.
