From the program:

"Join Babylon 5 star Jason Carter in a unique experience you're not soon to forget. Jason Carter brings to you his wealth of experience in the acting field in an hour and a half acting workshop. The experience is geared to all levels of interest, from the serious beginner to someone who is just curious in what techniques and exercises actors use to prepare for various roles. The workshop is interactive and entertaining to all who attend!"

This event was always my favorite at MegaCon the years that it was there...
