I am trying to locate a place where I can purchase some pre-school cartridges for a TI 99/4A that was given to me. I would like these for my three year old. I have no experience with PCs so any info on this would be greatly appreciated. Also, it is my understanding that TI is no longer in the PC business. Is this correct? Please mail responses to ahuta!mlp.

Thanks in advance.

TI stopped making the home computer about a year ago. I have found that the home computer magazine is the best place to look for hardware/software companies. This mag also has a lot of information about the TI. Here is the address

Emerald Valley Publishing Co.
PO Box 5537, Eugene, OR 97405
