[color=blue]> I am currently attempting to find the last screen on a game[/color]
[color=blue]> called LOAD RUNNER. I have reached the 92nd level but got[/color]
[color=blue]> stuck. It takes about 5 hours to get this far. Does anyone [/color]
[color=blue]> know a quick method to moving up levels in this game (as in[/color]
[color=blue]> MINER 2949r? I have misplaced or lost the instructions to[/color]
[color=blue]> this game, but I don't remember any bypass data in them[/color]
[color=blue]> anyway. Sure is one heck of a game![/color]

For a start LOAD RUNNER is called LODE RUNNER and if you had an original copy of the game you would know this and how to edit/change play levels.

Also it seems unlikely to me that you have lost the instructions to Miner 2049er (and LODE RUNNER) and I tentatively suggest you never had them.

Perhaps I should not have sent this article, but I LOVE FLAMING POSSIBLE pirates.
