Subject: System repair

Hi everybody,

I was just wondering if anyone on the list repairs broken PC Engine=20  
Duos. I bought a used one from Japan on Ebay and it lasted all of one=20  
day. I suspect the problem is the CD motor. Anyway, please email me if=20  
you repair OR HAVE ANY SUGGESTIONS on where I can get it done. I know=20  
I could probably send it back, but that would be costly and I want it=20  
to work.

Thanks,

Tom Workman
