A little late on this thread, but what about Liquid Kids and Rainbow Islands? I know these are Japanese-only titles, but they seem just as rare as some of those others.

I have been looking for a copy of Liquid Kids for AGES now and I have never ONCE seen it on eBay at all! Rainbow Islands is on there sometimes, but usually always for over $100. What is reasonable to pay for these titles, and how rare are they really?

In that vein, if anyone here has a copy of either they'd like to sell, let me know. :)
