Subject: now, the \$3,300 game

hey List,

indo no honou just dropped almost \$1,000 in price! i don't know what brought that on but let it be a sign of how quickly prices change here in japan. fortunately, those of you who've sent me money and wish lists did so before these changes took place. anyway, i wonder how they determine these prices. this can be such a strange market sometimes. bye for now, george
