Hmm... I didn't actually see it (even if I were living in America, I tend to avoid G4TV like the plague), but was he specifically talking about Ys VI? If so, the music was fantastic but the English voice acting is pretty atrocious. If you're going to go back to the original games, Ys I and II may be unrivaled in voice acting excellence, but the Turbo CD version of Ys III in the US had some of the worst VA I've heard on the system (with the exception of Dragon Slayer, which I'm convinced was recorded with a cassette tape recorder in a closet by people they dragged off the street and gave five bucks to read lines).
