Welcome to the Ada Software Repository on SIMTEL20!

This repository is structured as follows:

Directory Name Contents

Top-level; general information files
(* .TXT); subdirectory files (*.DIRECTORY)
Components Subdirectory; software components
(building blocks) are located here;
candidates: math packages, TERMCAP routines,
utility packages and subprograms
Education Subdirectory; sample programs
and online courseware are located here
General Information Subdirectory; notes,
comments, misc files, etc
Pointers Subdirectory; information on other
sources of software and information (such
as ECLB resources) on the net
Tools Subdirectory; sources to tools, such
as editors, spelling checkers, etc, stored
here

Special Notes:

1. A master CRC list of all files in the repository is contained in . It is named ADA.CRCLST.ymdd (date is at the end).
2. All Ada source files have a file type of ADA; all prologues have a file type of PRO.

3. Files of type CM (in) are configuration management files and provide quick summaries, as does the ADA.CRCLST.
4. First-time users of the repository should examine the files in first before exploring the other subdirectories.
