[... carnage ...]

Well, hi there again! First, thanks to all (18!) of the honest Netters who
replied to me 'bout the Megamax-C thing. All the necessary info has been
forewarded to Megamax and the plan to deal with it accordingly. (I am still
hopeful of no copy protection scheme)

Second, for all of the Megamax-C OWNERS out there I will be accepting
Bug-Reports on the Megamax-C Compiler/Linker, etc package. NOTICE I said
BUG_REPORTS, not programming questions, etc. If the programming question
has somthing to do with a bug or a fix there's a chance I can help.
I will provide this service for a while to see what kind of turn out I get
and as a disclaimer, I reserve the right to quit it at any time, etc.

    Flip /tom/ Phillips
cbosgd!osu-eddie!tepj

Also:
  This has nothing to do with the Ohio State Univ, Its employees, Its
children, its people, nothing...
