According to the Simtel-20 Archive Blurb mboot3.asm may be found as

micro:mboot3.asm

however I can't find it in that directory. Could someone point me to its current location?

Thanks,

The archive blurb is a bit out of date on the location of that file.

It was moved to MICRO:MBOOT3.ASM some time ago as part of  
the file reorganization at Simtel20.
