I have recently purchased a TS-1000 and have also acquired a Shurgart 400L SSSD drive. Would anyone out there in net land know where I can get information on:

a) a disk interface;
b) a power supply for the drive
c) software the make the whole thing work?

p.s. I am electonicly minded but I haven't yet used a disk drive.

All responses greatfully accepted. Reply via the net or by post.

Thanks in advance from the "Goofy Newfie".
