Watching Charter's ON-DEMAND service under "TMC" and they had "Shivers" listed (AKA Attack of the Blood Parasites; alternate titles: The Parasite Murders and They Came from Within) is a 1975 Canadian horror film written and directed by David Cronenberg.

Saw this on cable a long time ago, never seen it on the air since.

The one thing I remember most about the parasite was that it looked like the little hydra-like creature that crawled down the drain in "Village of the Giants".
