What the heck, I'm feeling post-of-the-dayish. From the immortal pages of Stephen Ratliff's _Enterprized_:

Tom: One ship. One phaser bank. And he's attacking earth? That's like trying to drive to the corner grocery store in a Yugo!

Boy am I glad this didn't survive the rewrite.

.... and I've got to find a poser format model of a Yugo to create a picture of one attacking the Enterprise ... with a bag of groceries in the passenger seat.
