... which was a Fathom Event tonight (Wednesday) and even if it wasn't I imagine there's a healthy number of folks here who've seen the movie ...

Who was the protagonist, would you say, Gene Kelly as Don Lockwood or Donald O'Connor as Cosmo Brown?

Don Lockwood gets the screen time and the romantic subplot, the traditional markers of protagonist-hood, but Cosmo Brown does a lot more of pushing the plot forward.

What do you think, sirs?

I'd say it's pretty clearly Debie Reynolds as Cathy.

"Curse you, Don Tickles, Notary Public!"
