I have a controller (for a 10 Mb hard disk) made by Adaptec. It has the number ACB4000 on it. I am looking for any information about it -- schematics, IO registers, user manual, service manual, etc. I got it second hand with nothing to go by. It has a 50-pin flat cable which connects to an adaptor board in the computer -- could it be a SASI interface? Any help would be appreciated. Thankyou in advance, and please mail replies to me.
