This newsgroup is being renamed from net.micro to comp.sys.misc.
This renaming will gradually take place over the next few weeks.
More and more messages posted to this newsgroup will be aliased
into the new newsgroup as they pass through the net, and people
will begin to post to the new group. After a few weeks, the
old name will be removed.

This note is to inform you of the renaming so you can begin to
read the new group as well as the old group.
