Summary: Current 520ST retail price?

Now that the 1020ST is coming out at a retail price of \$999, will the 520ST still be available, will it have a new price, and if so what will that new price be?

The 520ST is still available at \$799 bundled with drive and monochrome monitor, or \$399 unbundled. The 520ST now includes an Rf modulator and composite video output.
