Subject: Source Caches/Archives (Where?)
Posted by hutch on Mon, 08 Dec 1986 08:36:53 GMT

Hi, I am interested in compiling a list of hosts with Amiga source
directories in a form reachable from the outside world. Sdcsvax is
on the arpanet, and so any arpa sites would be most appreciated.

I have acquired most of the source from *.amiga from usenet, and anyone
missing aything that may have been up some time ago can certainly feel
free to send me a note and I will send you a copy or leave it in ~ftp
for you to grab.

I will ofcourse post a summary if I get any replies.

I know of Two on the ArpaNet, but I'm sure there are more.

 asc.Purdue.EDU is the home of mod.amiga.sources

ucbvax.Berkeley.EDU has SHELL and MY.LIB sources/executables

Try the following:

 trantor.UMD.EDU

Louie Mamakos (sp?) has been archiving stuff there from the
early days of Info-Amiga.

/* End of text from uiucuxc:comp.sys.amiga */

   last time i looked, trantor.umd.edu had archives of net.micro.amiga
going back to last year.
   i will be posting makeboth.arc soon; in the meantime, it's in pub
on uiucuxc.cso.uiuc.edu (192.17.5.50).
