The only use for a Spectrum other than a doorstop is as a substitute for  
a clay target in skeet shooting.

Yep, the Spectrum makes an excellent doorstop when you turn it upside  
down ... those idiotic rubber keys are actually quite good at stopping  
it from sliding on carpet or polished floors. (Mind you, those rubber  
keys are a giant leap forwards from the even worse membrane keyboards  
of the ZX80 and ZX81 toys.)
