Tatsuo Sato's Comedy Masterpiece Returns in High Definition!

The Earth, its moon and its Martian colonies are under alien attack, but the war against the "Jovian lizards" has, so far, been nothing short of a series of disasters.

Disgusted by the incompetence of Earth's military, the independent arms manufacturer Nergal builds its own space battleship and plans to launch a desperate offensive to save humanity. But due to a shortage of trained soldiers, they've assembled the most unorthodox crew to ever launch into orbit! With a pacifist cook-turned-unwilling mecha pilot and a ditsy admiral's daughter in command, can this unprecedented gathering of geeks, misfits and anime fans prevail against the Jovian menace?
