Is there a list of OS# that show up to where I can go with my G4?
Thanks.

I think it depends on the G4 model. The last G4 MDD can go up to 10.5.

Here's a website with all the Mac models and their specs, included the MacOS
they can use (this is the Powermac G4 page):
< http://www.everymac.com/systems/apple/powermac_g4/index-powe rmac-g4.html>

HTH,
Valter
