Dell Latitude D600

Dell has taken everything that's made the Latitude™ C-Family a big success and dialed it up even higher.

Continuing with the Latitude core values of commonality, consistency and compatibility, Latitude D-Family has embarked on a new generation of technologies, form factors, intuitive designs and innovative common docking and module solutions. Dell Latitude notebooks offer mobile computing solutions designed to be customized for business and the Latitude D-Family is no exception.

Intuitive Form Factors & Design

The Latitude D600 is sure to leave a lasting impression with its easy to use and slim design. Located on the side of the unit, the modular bay's innovative latch is designed for easy insertion and removal of the various D-Family module options. Protecting your investment is important and D600's internal magnesium alloy frame helps to provide structural rigdity to protect what's inside your notebook. Outside, the Latitude D600 supports a slim design using lightweight aluminum material.

Docking Solutions

Latitude's ingenious D-Family docking solutions allow you to view your system at a whole new level. The Latitude D/View notebook stand elevates the notebook's LCD to a more comfortable viewing position, replacing the need for an external display and offering the convenience of an all in one desktop solution. Enjoy the versatility of the D-Family docking solutions with a choice of either the Latitude D/Port Advanced Port Replicator or the D/Dock Expansion Station.

Dell Wired and Wireless Communications Solutions

Every Dell Latitude D600 features wireless networking MiniPCI card, 56K¹ V.92 capable modem and 10/100/1000² wired network card all as part of the standard offering. The Dell Latitude D600 also features an optional TrueMobile™ 300 integrated Bluetooth solution. With Gigabit² Ethernet, users can rest assured that their notebook investment is compatible with future deployment of Gigabit Ethernet across the network infrastructure.

High Performance with Intel® Pentium® M Processor and 855PM Chipset

The Dell Latitude D600 notebook features the latest Intel® Pentium® M processors featuring microarchitecture incorporating a power optimized 400MHz processor system bus and aggressive clock gating designed for higher performance & lower power. These processors also feature a power managed 2MB of cache in addition to the enhanced Intel SpeedStep® Technology. The Dell Latitude D600 incorporates the Intel 855PM chipset featuring USB 2.0.

The Dell Latitude D600 features the ATI® MOBILITY™ RADEON™ 9000 graphics chipset with 32 MB of 64-bit DDR dedicated graphics memory for the most demanding applications. This 4X AGP solution features integrated video acceleration for watching high quality, full frame rate DVD on your notebook or connected to your external display, with exceptionally low power consumption.

Integrated Smart Card Security For a Worry Free Mobile Experience

Notebook mobility brings new vulnerabilities such as unauthorized user access. The D600 features an integrated Smart Card reader providing an industry-standard based security solutions that helps to protect the notebook's valuable data from unauthorized users. When used in combination with applicable software, industry standard smart cards provide a robust user authentication solution.

3 Years International Service and Support³

The Dell Latitude D-Family offers you a superb selection of notebooks, each of which is designed to exceed your expectations and backed by Dell's exceptional service and support with 3 years Next Business Day On-site⁴ service and International programs across 40 countries.
