But does anyone have a disk or even an image of

ABNER'S BIBLE TALES by TRINITY SOFTWARE?

Released in 1986/7 and only available by mail order.

The only reference to it I have found online is an old issue of INFO with the advert for it.

It was programmed by Francois Lionet (formerly of Jawx, programmer of C64 Captain Blood) and may have some unheard music by Jim Cuomo. Trinity Software was Jim's mother, Felicia.

There are three mini-games based around the Bible

Moses in the basket avoiding crocodiles on the river

David killing Goliath with his sling

The trumpets destroying the Walls of Jericho

Hi, I was aware of the blog. I am interviewing Francois Lionet for Retro Gamer and read the blog, which is why I am looking for it.
