Just when you thought JarJar Abrams' awful lazy-ass crapfest "Sequel Trilogy" couldn't get any more ridiculous ... hopefully this idiocy isn't true. :-(

If Darth Sidious could survive that, then Windu could come back as well! :)

May as well just bring all the dead people back to life. JarJar Abrams is simply a talentless lazy hack with no clue what he's ever doing. He made an incomprehensible mess of Lost, he ruined Star Trek, and now he's completing his ruination of Star Wars. :-(

Yet more insufferable garbage from the deluded "mind" of JarJar Abrams rumoured to be in Episode IX ... now apparently Padme Amidala's necklace (created by young Anakin back in Episode I) is of huge mighty importance and leads to a plaent full of Force-sensitve being in the

Unknown Regions ... where does this more get this crap from? Probably the same as all his other moronically silly "ideas", by looking in his toilet bowl. :-(

In the spiritual/religion world, there is something called reincarnation! I think Yoda, Qui-Gon & Obiwan could go through that since they figured out how to become one with the Force, not Anakin though. ;)

Rise of Skywalker was good, just that it was a bit too fast-paced, too much movie crammed into the runtime. If it hadn't been the trainwreck that was Last Jedi, they wouldn't have had to fix so many things and focus on the logical story set up in Force Awakens. A lot of Rise is just a huge middle finger to Rian for Last Jedi.

The entire Sequel Trilogy is "just a huge middle finger" to the fans
.... nothing but a lazy-ass, copy-catted, "Politically Correct"-erised
pile of ill-fitting garbage. :-(
