Celebrate! I have good news for ratmm: this is the end of my MiSTing of Arthur Scott Bailey's 1915 novel The Tale Of Fatty Raccoon. There's one more chapter to come! It's the culmination of the life of this young raccoon as he explores the world and tries to eat it. I don't know what my next MiSTing project will be, or when it will be, but I hope you've enjoyed this.

Chapter 20, and all previous chapters, are on my humor blog at

This chapter does not **depend** on anything earlier to understand. It does refer to something seen in Chapter 10, posted just a couple months back right here. But if you want to see that specifically, you can catch it at:

Thanks for reading. See you later, with whatever the next thing is.
