No idea, but these are not binary groups, no sharing files here, just talking. You really don't know where you are, do you? Usenet wasn't really designed to be a big pirate-fest, and it functions really badly as one. Better just go get a torrent, miles quicker and reliable.

if love is a drug, then, ideally, it's a healing, healthful drug... it's kind of like prozac is supposed to work (without the sexual side effects and long-term damage to the brain and psyche)
