The April 1 Los Angeles Maker Faire 2023 is almost here, and I'll talk about the exhibits for that event. The April 15-16 Commodore Los Angeles Super Show 2023 is just 4 weeks away, and we'll talk about filming vice-president Roger's presentation on Ham Radio and the C64 and filming the CLASS commercial at Vasquez Rocks in the L.A. area.

Returning to our meeting is the Mega65, the modern-day replica of the Commodore 65. We'll look at the C64 programs on its Demo Disk #1. If we have time, we'll look at Demo Disk #2. Also if we have extra time, we'll look at some of the latest C64 programs (with the use of the Ultimate 64) and the latest VIC-20 programs (on a VIC-20). In the wings, we'll have the Amiga 1200 with its newly-installed Arcade Game Selector II.

Truly,

Robert Bernardo
