Dear Atari users,

EmuTOS 0.9.0 has been released.

The main features are:
- Support for real Falcon 030 with EmuTOS-RAM
- Support for Amiga hardware
- Internal IDE driver enabled by default

See the full changes there:
http://sourceforge.net/p/emutos/news/

And download your preferred binary archive there:
http://sourceforge.net/projects/emutos/files/emutos/0.9.0/

Enjoy!
