SAP42 is now available from SIMTEL20 as:

Filename Type Bytes CRC

Directory MICRO:
SAP42.LBR.1 BINARY 13696 247DH

This one is SAFE! Doesn't erase all your files like SAP41 did. SAP42 has a new assembly-time feature to NOT delete zero-length files. This can be handy for some programs other than the disk catalog program, that mark a disk with a zero-length file.
