Hot Toys Teases 18-Foot Millennium Falcon

An 18-foot-long Millennium Falcon by Hot Toys debuts this week.

Recently Hot Toys showcased an impressive 1/6th scale Millennium Falcon cockpit at San Diego Comic-Con but are not stopping there as a complete and highly detailed 1/6th scale Millennium Falcon measuring close to 18 feet (5.5 meters) long by 12 feet (3.7 meters) wide will be making an appearance at Ani-Com and Games Hong Kong (ACGHK), the biggest pop-culture event in Hong Kong. Check out a sneak peek at this monstrosity in the gallery below, along with close-up pics of the cockpit as well!

This year Hot Toys is partnering up with The Walt Disney Company (Hong Kong) to bring the biggest Star Wars presence at ACGHK, where a number of Star Wars collectibles by Hot Toys and life-size exhibits will be on display from July 24 - 28. Fans can expect more reveals as the week progresses.

If you want to see this spectacular exhibit in person, come to Hot Toys¹ booth (E15-16) at ACGHK in Hong Kong Convention and Exhibition Centre this week.
