Subject: Wireless N (802.11n) PCI options for G4/G5?
Posted by Shao Zhang on Thu, 05 May 2016 23:40:27 GMT

All I could find was this Sonnet card:

http://www.sonnettech.com/product/ariaextremenpci.html

Which requires its own driver.

I think there might be some Wireless-N USB adapters that work natively in
10.5.x but I prefer to use PCI. Any specific chipsets to look out for?
