Kinda weird that nobody's mentioned the live tour yet, so I'll mention it. Anyone else gone?

I had a friggin' BLAST at the Vic last night, catching both "Eegah!" and "[secret film]" back-to-back. There is a certain continuity between the two shows, from what I could tell. I think they assumed a lot of people would be catching both shows, and from the number of people they lined up on the balcony stairs to get their second tickets scanned, they assumed right.

First I've heard of this, but not the first time this Summer I've been warned to watch out for snakes:

Needless to say, as soon as I saw that sign my first thought was of MST3K.

Unfortunately the closest the tour gets to me is Baltimore on a Wednesday evening, which is just too far away for a middle-of-the-week trip.
