Natsu no Rakugaki Manga Summary:

From bliss:

Another Adachi sports manga this time featuring Kendo instead of baseball. Another set of teenagers caught up in childhood promises, to display a "never say die" spirit even if your best friend or brother even if your childhood girlfriend dies, "Never Say Die" which is never openly stated. As our correspondent Kenneth M. Lin points out the artwork does not change much between stories.

Only one chapter up so far and this may be all as it was submitted to the original publisher as a one shot. Further information may be read in Japanese but no English sources yet.
